Serie A: Moretti underwent successful Achilles tendon surgery in Pisa.

Davide Moretti underwent surgery on his left Achilles tendon at the Casa di Cura San Rossore in Pisa. The Pallacanestro Trieste guard's operation was a complete success. "The player," the club announced, " will begin his rehabilitation program immediately, aiming for a full functional recovery." "First of all, I would like to thank Pallacanestro Trieste for their great commitment, as well as the San Rossore clinic and Professor Van Dijk, whose professionalism and ability to instill a sense of fundamental confidence in me at a difficult time," Moretti said . "I hope this surgery will definitively resolve an issue that has unfortunately limited my performance, especially recently, but which I am confident will be just a memory from now on. I look forward to the future with ambition and can't wait to return to the court as soon as possible." Reproduction reserved © Copyright ANSA Respecting your privacy is our priority.
